World Digital Economic EXPO 2019

August 30-31, 2019

Connect the Unconnected

We are looking forward to welcome the most exciting players and innovators from across the spectrum who are leading digital enterprise transformations from around the world.

The conference will take place on 19 -20 August 2019 and we are heading over to Manila, Philippines - a potential utopia for mainstream Fintech ecosystem adoption.

Experiential and unmissable conference where Digital Payment is our focus. Merchants and start ups are able to present a live demo of their products seizing the opportunity to spark deals that fuel progress towards a seamless digital economy.

Merchants in EXPO

Training

Merchant will be trained 1 week before the EXPO on how to use the digital asset/POS and how to download the Application and trade their Assets

Fiat Settlement

Merchants can choose how to receive the settlement by giving them an account in the Exchange where they can exchange the crypto back to Bitcoin or Ethereum and cash out to their choice of digital wallet.

Cash out via Cashier

Merchants who decided to cash out on the day of the event can simply sell back the token to the cashier at the same price of the token or sell it back to the crypto ATM where they can get Bitcoin and Ethereum .

Robotics and Automation and Introduction to Blockchain in University of Makati

Empowering Filipinos In Emerging Technologies

Our objective is to take an academic approach in Blockchain Technology as a subject study or a part of the educational curriculum to prepare students in the 4th Industrial Revolution. The EXPO will act as a conduit in bringing relevant educational information, trends, projects, investors and thought leaders that will enhance the attendees knowledge in cryptocurrency, Blockchain and other emerging technologies.
